The following guidelines have been designed to help make applying for a grant from the Community Foundation easy. Each proposal will be reviewed by a panel of community members and formally approved by the foundation’s Board of Directors. Awards will be determined based on the proposals value to the residents and communities in the Southern Tier, availability of funding, and quality and vision presented in the application.

COMMUNITY FOUNDATION GUIDING PRINCIPALS FOR GRANTMAKING

- The Community Foundation builds community and inspires philanthropy. We support creative, effective and innovative programs in the areas of human services, arts and culture, education and youth, health, the environment and civic affairs. Successful projects will address community needs while demonstrating sustainable impact and measurable outcomes.
- We strive to create healthier conditions for people in our community by collectively improving and/or developing them together.
- Funded programs will provide clearly stated goals for the incorporation of diverse cultures, philosophies and experiences. Diversity is present not only in program delivery but also in the mission, boards, and operations of the organization.
- The voices of the underserved and economically diverse are important, and programs designed to foster access for community connections are preferred.

ABOUT COMMUNITY GRANT PROGRAM – PROGRAM GRANTS

The Community Foundation funds a wide variety of programs and projects across all program areas and typically awards grants covering a one-year time frame. Organizations may request an amount between $2,000 and $20,000. Most grants fall into three categories:

- Program or Direct Service Grants – for costs associated with implementation of the program
- Capital Grants – for costs related to building construction, building renovation or capital equipment
- Organizational Development and Capacity Building Grants - for costs related to activities such as strategic planning, board development, program planning, performance management and evaluation, succession planning or marketing and communications. Other organizational capacity areas under this category include business planning, fund development, facility planning and management systems (financial, HR, technology)
